

Bismuth Metal Powder CAS No 7440-69-9			MATERIAL SAFETY DATA SHEET SDS/MSDS			
	TION 1: Identification of the s	ubstance/mixture a	nd of the company/undertaking			
-		Bismuth Meta	l Powder			
	CAS-No.	: 7440-69-9				
1.2	2 Relevant identified uses of the substance or mixture and uses advised against					
	Identified uses	: Laboratory chemica	als, Industrial & for professional use only.			
1.3	Details of the supplier of the safety data sheet					
	Company :	Pallav Chemicals & 253, Shiv Shakti Ir Estate, Opp Mittal Andheri Kurla Roa Andheri (E), Mumb 400050 INDIA	idustrial Estate d,			
	Telephone : Email :	+91 22 4928 4000 sales@pallavchem				
1.4	Emergency telephone number Emergency Phone # :		(9:00am - 6:00 pm) [Office hours]			
SEC	TION 2: Hazards identification	1				
2.1	Classification of the substance or mixture					
	Classification according to Regulation (EC) No 1272/2008 Flammable solids (Category 1), H228					
	For the full text of the H-Statements mentioned in this Section, see Section 16.					
2.2	Label elements	Label elements				
	Labelling according Regulation (EC) No 1272/2008 Pictogram					
	Signal word	Danger				
	Hazard statement(s) H228	Flammable solid.				
	Precautionary statement(s) P210	Keep away from h ignition sources. I	eat, hot surfaces, sparks, open flames and other lo smoking.			
	P370 + P378		dry powder or dry sand to extinguish.			
	Supplemental Hazard	none		Page 1		

Statements

# 2.3 Other hazards

3.1

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

# **SECTION 3: Composition/information on ingredients**

Substances	
Formula	: Bi
Molecular weight	: 208.98 g/mol
CAS-No.	: 7440-69-9

No components need to be disclosed according to the applicable regulations.

For the full text of the H-Statements mentioned in this Section, see Section 16.

# **SECTION 4: First aid measures**

# 4.1 Description of first aid measures

### **General advice**

Consult a physician. Show this safety data sheet to the doctor in attendance.

### lf inhaled

If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.

### In case of skin contact

Wash off with soap and plenty of water. Consult a physician.

### In case of eye contact

Flush eyes with water as a precaution.

### If swallowed

Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.

- **4.2** Most important symptoms and effects, both acute and delayed The most important known symptoms and effects are described in the labelling (see section 2.2) and/or in section 11
- 4.3 Indication of any immediate medical attention and special treatment needed No data available

### **SECTION 5: Firefighting measures**

5.1 Extinguishing media

# **Suitable extinguishing media** Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

- 5.2 Special hazards arising from the substance or mixture Nature of decomposition products not known.
- **5.3** Advice for firefighters Wear self-contained breathing apparatus for firefighting if necessary.
- **5.4 Further information** Use water spray to cool unopened containers.

### **SECTION 6: Accidental release measures**

**6.1 Personal precautions, protective equipment and emergency procedures** Avoid dust formation. Avoid breathing vapours, mist or gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. For personal protection see section 8.

# 6.2 Environmental precautions

Prevent further leakage or spillage if safe to do so. Do not let product enter drains.

### 6.3 Methods and materials for containment and cleaning up

Sweep up and shovel.\'20 Contain spillage, and then collect with an electrically protected vacuum cleaner or by wet-brushing and place in container for disposal according to local regulations (see section 13). Keep in suitable, closed containers for disposal.\'20 Contain spillage, pick up with an electrically protected vacuum cleaner or by wet-brushing and transfer to a container for disposal according to local regulations (see section 13).

### **6.4** Reference to other sections For disposal see section 13.

# **SECTION 7: Handling and storage**

### 7.1 Precautions for safe handling

Avoid formation of dust and aerosols.

Provide appropriate exhaust ventilation at places where dust is formed.Keep away from sources of ignition -No smoking.Take measures to prevent the build up of electrostatic charge. For precautions see section 2.2.

### 7.2 Conditions for safe storage, including any incompatibilities Store in cool place. Keep container tightly closed in a dry and well-ventilated place. Storage class (TRGS 510): Flammable solid hazardous materials

### 7.3 Specific end use(s)

Apart from the uses mentioned in section 1.2 no other specific uses are stipulated

# **SECTION 8: Exposure controls/personal protection**

### 8.1 Control parameters

### 8.2 Exposure controls

### Appropriate engineering controls

Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.

# Personal protective equipment

### Eye/face protection

Safety glasses with side-shields conforming to EN166 Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

### Skin protection

Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

### **Body Protection**

Flame retardant antistatic protective clothing., The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

### **Respiratory protection**

Where risk assessment shows air-purifying respirators are appropriate use (EN 143) respirator cartridges as a backup to engineering controls. If th full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

#### Control of environmental exposure

Prevent further leakage or spillage if safe to do so. Do not let product enter drains.

### **SECTION 9: Physical and chemical properties**

# 9.1 Information on basic physical and chemical properties

a) Appearance Form:

	b) Odour		No data available							
	c) Odour Threshold		No data available							
	d) pH		No data available							
	<ul> <li>e) Melting point/freezing point</li> </ul>		Melting point/range: 271 °C - lit.							
	<ul> <li>f) Initial boiling point and boiling range</li> </ul>		1,560 °C - lit.							
	g)	Flash point	No data available							
	h)	Evaporation rate	No data available							
	i)	Flammability (solid, gas)	The substance or mixture is a flammable solid with the category 1.							
	j) Upper/lower flammability or		No data available							
	explosive limits									
	k)		No data available							
	I)	Vapour density	No data available							
m) Relative		Relative density	9.8 g/mL at 25 °C							
	n)	Water solubility	No data available							
	o)	Partition coefficient: n- octanol/water	No data available							
	p)	Auto-ignition temperature	No data available							
	q)	Decomposition temperature	No data available							
	r)	Viscosity	No data available							
	s)	Explosive properties	No data available							
	t)	Oxidizing properties	No data available							
9.2	Other safety information									
	No	data available								
		10: Stability and reactivi	ty							
10.1	1 Reactivity No data available									
10.2		mical stability								
	Stable under recommended storage conditions.									
10.3	10.3 Possibility of hazardous reactions									
No data available										
10.4	10.4 Conditions to avoid									
	Heat, flames and sparks.									
10.5	0.5 Incompatible materials									

No data available

# **10.6 Hazardous decomposition products**

Other decomposition products - No data available Hazardous decomposition products formed under fire conditions. - Nature of decomposition products not known. In the event of fire: see section 5

# **SECTION 11: Toxicological information**

### 11.1 Information on toxicological effects

# Acute toxicity

LD50 Oral - Rat - male and female - 2,000 mg/kg(Bismuth Powder) (OECD Test Guideline 401)

### Skin corrosion/irritation

No data available(Bismuth Powder)

# Serious eye damage/eye irritation

No data available(Bismuth Powder)

# Respiratory or skin sensitisation

No data available(Bismuth Powder)

### Germ cell mutagenicity

No data available(Bismuth Powder)

### Carcinogenicity

IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

### Reproductive toxicity

No data available(Bismuth Powder)

### **Specific target organ toxicity - single exposure** No data available(Bismuth Powder)

# Specific target organ toxicity - repeated exposure

No data available

### Aspiration hazard

No data available(Bismuth Powder)

### Additional Information

RTECS: EB2600000

# **SECTION 12: Ecological information**

12.1 Toxicity

No data available

- **12.2 Persistence and degradability** No data available
- 12.3 Bioaccumulative potential

No data available

#### **12.4 Mobility in soil** No data available(Bismuth Powder)

### 12.5 Results of PBT and vPvB assessment

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

### 12.6 Other adverse effects

No data available

### **SECTION 13: Disposal considerations**

### 13.1 Waste treatment methods

### Product

Burn in a chemical incinerator equipped with an afterburner and scrubber b highly flammable. Offer surplus and non-recyclable solutions to a licensed disposal company.

Contaminated packaging

Dispose of as unused product.

# **SECTION 14: Transport information**

14.1	UN numbe	r				
	ADR/RID: 3	3089	IMDG: 3089	IATA: 3089		
14.2	UN proper shipping nameADR/RID:METAL POWDER, FLAMMABLE, N.O.S. (Bismuth Powder)IMDG:METAL POWDER, FLAMMABLE, N.O.S. (Bismuth Powder)IATA:Metal powder, flammable, n.o.s. (Bismuth Powder)					
14.3	Transport hazard class(es)					
	ADR/RID: 4	4.1	IMDG: 4.1	IATA: 4.1		
14.4	Packaging	group				
	ADR/RID: I	I	IMDG: II	IATA: II		
14.5	Environmental hazards					
	ADR/RID: I	no	IMDG Marine pollutant: no	IATA: no		
14.6	Special pre No data av	ecautions for user				

### **SECTION 15: Regulatory information**

# 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture This safety datasheet complies with the requirements of Regulation (EC) No. 1907/2006. 15.2 Chemical safety assessment

# For this product a chemical safety assessment was not carried out

### **SECTION 16: Other information**

### Full text of H-Statements referred to under sections 2 and 3.

#### H228 Flammable solid.

### **Further information**

The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. The information in this document is based on the present state of our knowledge and is applicable to the product with regard to appropriate safety precautions. It does not represent any guarantee of the properties of the product. Pallav Chemicals & Solvents Pvt. Ltd and its Affiliates shall not be held liable for any damage resulting from handling or from contact with the above product. See www.pallavchemicals.com for additional terms and conditions of sale.
